

**Who are you?**

We're not a club or an organisation, we're just a bunch of cyclists riding together.

**What's the protest about?**

It's not a protest; we just want to ride our bikes safely. It's a celebration of cycling!

**Why are you blocking traffic?**

We're sorry if we contributed to your delay, our purpose is not to annoy motorists. Most of us ride our bikes for transportation every day. Imagine how much worse the usual congestion would be if we all drove cars instead!

**What can I do about pollution or congestion?**

Bikes are the fastest way to get around the city they increase your fitness as well as helping reduce traffic congestion and the production of additional global warming pollutants.

If using a car is essential for you why not join [www.citycarclub.co.uk](http://www.citycarclub.co.uk) or a lift share scheme: [www.2carshare.com](http://www.2carshare.com)

Better still, Try Cycling!
